HACKERS' CORNER | in Italian (without translation)

The hacking landscape

14:00 - 15:00 friday 17/04/2015 - Centro Servizi G. Alessi

Francesco Ongaro

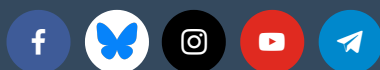

ISGroup

The romantic art of penetrating into systems, the collective perception of the Hacker, the innovation process: all elements to be redefined. The landscape has changed and much of it is due to a stream of money that has flooded the inhabitants of the Underground. In the last twenty years, technology has invaded our lives and the result is that we are more vulnerable than before.
